Ferritin+[®] Plant-Based, Vegan Ferritin Iron

The Easiest Way to Build Iron

- Easy on your stomach – no constipation or digestive distress
- Easy to feel good about – supported by 3 clinical studies and 11 patents
- Easy for your body to absorb – unique absorption mechanism efficiently delivers iron right where your body needs it, when it needs it
- Easy to take – just 1 capsule per day
- Easy 20 mg of elemental iron per dose

28⁷⁹ Ferritin+[®]
30 vegetarian caps

Supported
by 3 Clinical
Studies & 11
Patents

How Ferritin+[®] Works:

Ferritin is a highly bioavailable iron supplement. Because this form of iron moves easily through the digestive tract, it doesn't lead to constipation or the other common side effects of iron supplements. Each ferritin molecule is packed with iron atoms and uses a unique pathway of absorption, unlike any other form of iron. Ferritin iron consists of a protein 'cage' that protects the iron through the digestive tract and protects your digestive tract from the iron as well. It's what allows for a slow release and absorption over time, eliminating the need to add absorption co-factors such as vitamin C, etc.

Flora Iron+[™] with B-Vitamin Complex features liquid ferrous gluconate — a form of iron clinically proven to quickly and significantly raise iron levels.

Choosing between Ferritin+® and Iron+

Let's explore the reasons you might prefer one over the other based on your individual preferences and health considerations.

Why Ferritin+®?

Ferritin+ is the ideal choice for those looking to raise low iron levels in the most efficient way.

Controlled Release

The phytoferritin-iron complex in Ferritin+® allows for controlled release and efficient absorption for a gradual and steady iron uptake. If traditional iron supplements haven't worked in the past, this unique iron delivery system could make all the difference.

Capsule Convenience

With a simple one-capsule-per-day dosage, it's perfect for a quick and easy supplement routine.

Why Iron+ Liquid?

Iron+ liquid is a good choice for those wanting a gentle, effective iron supplement with the added benefits of B vitamins.

Additional Nutrients

B vitamins in this formula provide an extra boost for energy and red blood cell production. This additional nutrient support can be beneficial for those looking for a supplement beyond iron alone.

Delicious Flavour

The delicious base of fruit juices is a palatable option for those who prefer liquid supplements over capsules, or have difficulty swallowing pills.

Why Iron+ Capsules?

Iron+ Capsules are good for those looking to maintain healthy iron levels.

These capsules have all the benefits and additional nutrients of Iron+ liquid in a convenient pill format. This is also the most cost effective choice to meet your daily iron needs.

ALL of Flora's iron supplements are plant-based, vegan, gluten-free, gentle and non-constipating.

Here's what people are saying about Ferritin+

"Great product!"

I am really happy that I have not experienced any stomach issues with this product! I feel great! Flora has always been my go to company and will remain so!"

Barbara S., ★★★★★

"Not Your Traditional Iron Supplement

I have been anemic my whole life. Finding a good iron supplement was a struggle. This is all I ever wished for. I love that Ferritin+ can be taken at any time, on an empty stomach or while consuming dairy, without decreasing its absorption or causing me GIT issues. My ferritin was 22 µg/L, leaving me extremely fatigued and often dizzy. Luckily, I was introduced to Ferritin+. After 2 days of taking 2x Ferritin+, energy improved noticeably. After 7 days, my blood levels reached 34 µg/L. So grateful for this gem. No more fatigue!"

Izzy, ★★★★★

"Ferritin Magic

Ferritin+ is my number #1 supplement! I no longer eat tons of ice daily and my anemia is gone. Plus, it has stopped my hair fall. I am so happy that I found an iron supplement that is healing me. I noticed the results after 2 weeks of using it. Thank you Flora!"

Kelly J., ★★★★★

IRON-DEFICIENCY Symptom Checklist

- ✓ Continually tired and lack appetite
- ✓ Often have difficulty concentrating
- ✓ Pale skin & dark undereye circles
- ✓ Feel chilly or catch colds easily
- ✓ Have brittle hair or fingernails that chip easily
